NYCRG'S 10 YEAR MILESTONE

The commercial real estate business has never been more competitive, exciting and challenging. It is because of our clients, community and team that NYCRCG continues to be recognized in the market as the number one preferred choice for commercial real estate brokerage in Westchester, Bronx and Rockland County.

Our success and growth originated from a firm that started out in 2005. Over the years, the most significant factor within our business has been the people who have touched our firm. My team and I are passionate and understand the impact that we have had with both our clients and customers. I would like to take this opportunity to thank all of you!

As the years have progressed, our brand grew and reached a new level. We have continued to be recognized as the leading boutique firm in Westchester, Bronx and Rockland County. Certain clients and friends have made great contributions which have helped shape us into the company we are today. We are grateful and would like to especially share thanks to our clients and industry partners who have supported us throughout the years.

One obstacle we face being in business for this duration, is managing through the downturns in the economy. We have learned a lot about each other throughout the challenging times we've faced and would like to share our appreciation with those who have supported us during those times.

Today marks a milestone for our business and we are excited about the prospect of continued growth. NYCRCG has created relationships for which have been marked by trust, partnership, integrity and ethics. We are confident that our business will continue to be shaped by our clients and the candidates we identify in the market. We look forward to continued growth and hope to build more long term relationships.

For over 10 years, NYCRCG has brought a personalized approach to commercial real estate, offering a wealth of experience and knowledge in a variety of industries and disciplines, enabling us to understand the unique business challenges that our clients face in facilitating and building the culture and people component of their business.

We thank you and look forward to the next 10+ years!

Regards,

Michael Rao
